

ENVIRO-MLT™

Belt Deicer, Ice Melter, Anti-Icing Agent

ENVIRO-MLT™

Belt Deicer, Ice Melter, Anti-Icing Agent

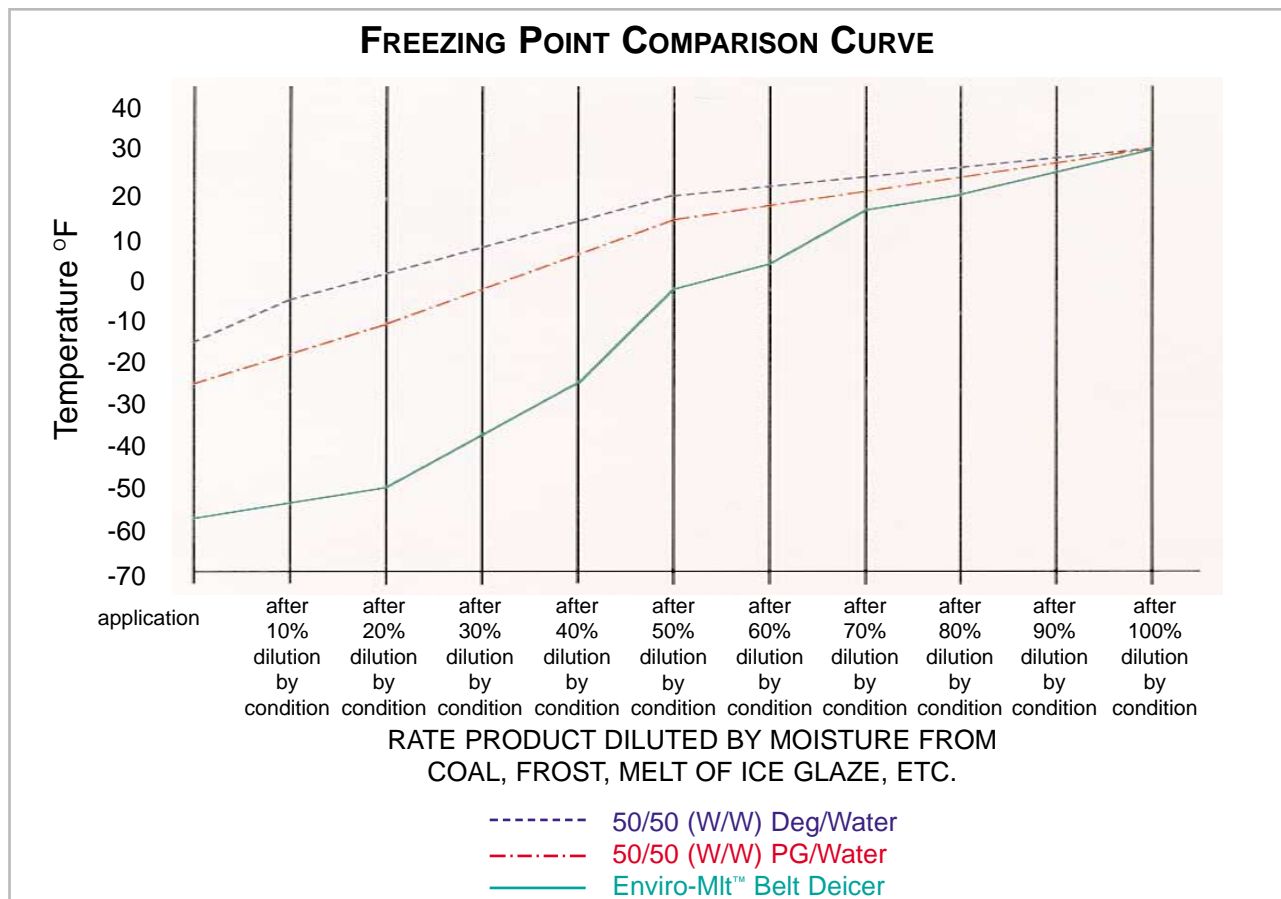

ENVIRO-MLT™ is a multi-component liquid belt deicer, ice melter and anti-icing agent.

ENVIRO-MLT™ is environmentally safe, non-toxic, non-corrosive and effective. It's ready to use.

ENVIRO-MLT™ melts and prevents ice build-up. **ENVIRO-MLT™** is not corrosive to equipment and does not crystallize in nozzles. **ENVIRO-MLT™** eliminates costly downtime and minimize hazardous working conditions. **ENVIRO-MLT™** aids in cleaning frozen build-up from bucket wheels, chutes and hoppers.

ENVIRO-MLT™ reduces maintenance and manpower costs and saves time by eliminating repetitious operations.

ENVIRO-MLT™ lasts much longer than DEG/water and PG/water blends. **ENVIRO-MLT™** is much more effective than DEG/water and PG/water blends. **ENVIRO-MLT™** works at -50° F while DEG/water blends works at -15°F and PG/water blends work at -27°F. Therefore **ENVIRO-MLT™** is much more economical to use than glycol/water blend and typical moderate temperature belt deicers.

ENVIRO-MLT™ is available in 275 gallon bulk tank, 55 gallon drums or bulk shipments. **ENVIRO-MLT™** is sprayed onto the conveyor belt with a **COBRA™** spray system or hand sprayer.

Each customer and application is different and each requires an analysis of the situation. Our experienced technical sales representatives and field service operators are trained to determine the best application rates for your needs.

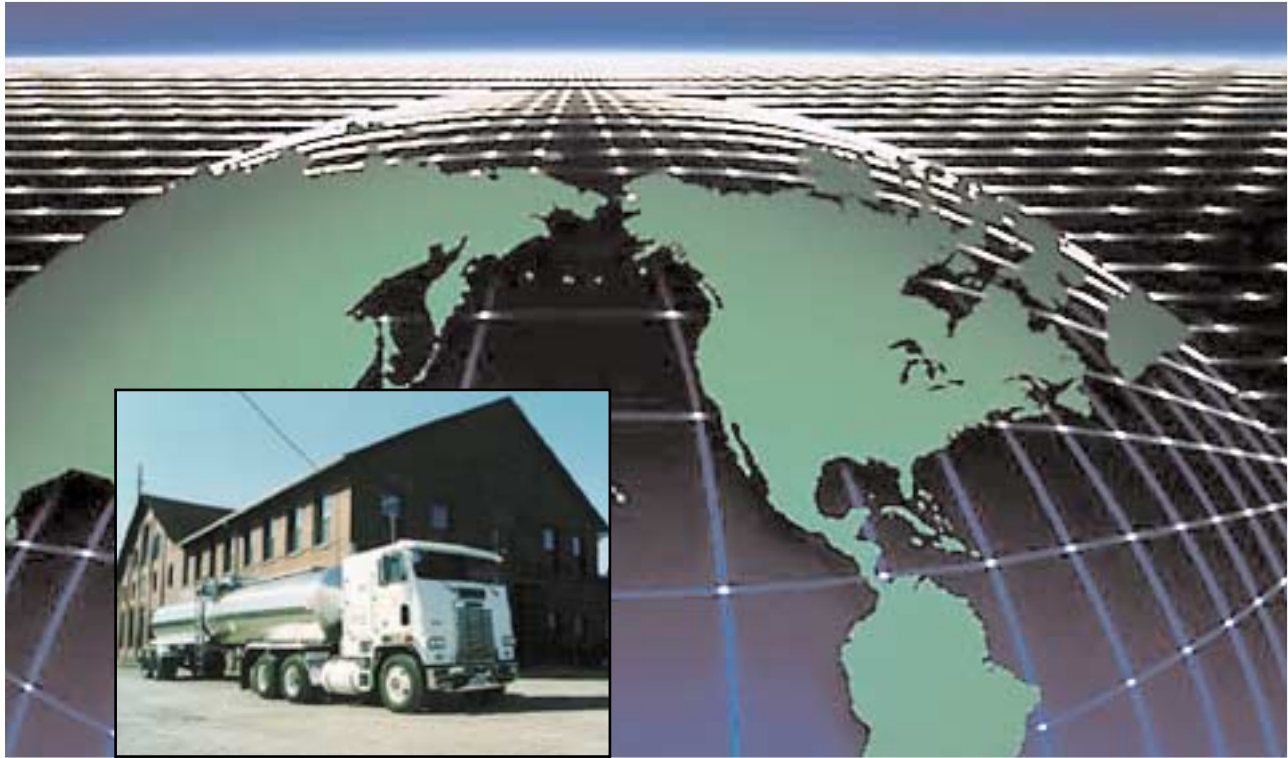

In general, spray **ENVIRO-MLT™** at the rate needed to coat the belt surface. Use at startup, during operation or at shut down.

OUTSTANDING FEATURES OF Enviro-Mlt™

- melts existing snow, ice and freezing frost from the surface of conveyor belts
- prevents snow and ice from building up on conveyor belts
- will not corrode metals
- reduces material handling time
- prevents down-time associated with dangerous and costly coal backslides
- can be stored outdoors
- does not require expensive heaters
- will not damage conveyor equipment or conveyor belts
- Effective as a deicer and as an anti-icer
- Lasts longer than DEG/water and PG/water blends
